

## RATES TO THE FAIR

Passenger Agents Would Reduce from All Sections.

FROM APRIL TO NOVEMBER

Want a Season Excursion Rate and Limited Also.

St. Louis, Jan. 23.—It was decided at the meeting of the passenger agents to recommend to their respective traffic organizations reduced rates to the world's fair for mail parts of the United States. Specifically, they agreed to ask for: A season excursion rate to St. Louis, beginning April 15 and continuing until November 15, selling tickets during that period at 50 per cent of double the one way fare; excursion rate with final return limit of sixty days at rate of one and one-third fare; that coach excursions be not run often than one day each week by each line, at rates and with limits and other conditions as may be agreed upon by interested lines.

The final meeting of the Transcontinental Passenger association was held tonight and the following rates from the Pacific coast were formulated:

From Pacific coast points to St. Louis and return, \$6.50; from Pacific coast points to Chicago and return, \$7.50; from Pacific coast points to Chicago and return by the above rates shall be sold three days in each month, with a ten-day limit going and ten-day limit return, with stop-over at points in transit.

The association will convene in Chicago at a special meeting, the date of which has not been set, to ratify these rates and take final action regarding the regulations and respective measures.

Mr. H. Sexton was re-elected president of the league, C. H. M. Crick of Des Moines, vice president, and W. B. O'Rourke and T. F. Burns were chosen directors.

## RAILWAY EXPENDITURES.

When Will the Full Results Show in Earnings?

New York, Jan. 23.—During the recent struggle to keep up net earnings, the question has been asked, in many financial quarters, "What will be the full benefit of the costly expenditures for betterment and economy be fully felt in earnings?" This question has been asked especially in regard to such very expensive projected undertakings as the Pennsylvania tunnel and the New York Central's new terminal facilities. The president of a very conservative railway, who has just answered the question as follows:

"If you mean in dollars and cents, some of them will never get back their expenditure. Outlay for improvements and betterments has been too widely spread in a way that on the surface does not show."

"What a great many people fail to understand is this: The railways of the country were built to a large extent in advance of the population. When many of the schemes were realized, the promoters themselves were in a way surprised. Then came a time when the natural expansion of the country strained the resources of the lines. One must either increase their facilities for handling freight or other lines must be built. The thing easiest understood was that

we did not want any more railroads. So, whether they wanted to or not, the railway managers were forced to put the large earnings of the past few years back into the property, in addition to funds raised from the sale of stocks and bonds. In the long run, even though it may not show as has been expected, a good investment has been made in larger engines and cars, stronger rails and bridges and changes in grades and curves. It will enable the roads already built to do the business."

## LOSSES FROM A FIRE.

University Library at Turin Destroyed Oriental Manuscripts.

Rome, Jan. 23.—An official report has been made on the losses resulting from a fire at the university library at Turin on January 23, according to which about 2,700 manuscripts, including almost all those of oriental origin, were destroyed. The number of volumes lost has not been established. The fire lasted twenty-four hours and it seems certain that 2,000 volumes of Greek, Latin and other codices were consumed, as well as the precious Venetian collection of books from the library of Cardinal Della Rovere. The codices from the celebrated abbey appear to have been saved, as was the Incunabula collection. Among the codices saved is an ancient code of the fourth century containing the gospels, as well as many others of late date. A classic medieval book of the greatest value, called "Heurs de Turin," by the Duke de Berry, for which Great Britain once offered almost a fabulous sum of money, as was an ancient French translation of Dante. Of this Dante there exists another copy in France.

## HAS A LONG TALK.

Morales Government at Santo Domingo Is Ready to Meet Claims.

Washington, Jan. 23.—General Sanchez, whom the Morales government has appointed Dominican minister to the United States, had a long talk with Acting Secretary Loomis today. The substance of what the minister had to say was that his government was ready to execute all the demands of this government regarding pending claims, and to stand by all agreements this government has made with previous Dominican administrations. Mr. Powell has practically recognized the Morales government, and no effort will be made to recall his action unless the Morales forces demonstrate their inability to maintain order. It is said that Mr. Sanchez desires to raise funds here to put the government on a firm basis.

## MUNITIONS OF WAR.

## WANTS ARE SUPPLIED.

Emperor William Has Attended to Needs of the Sufferers.

Berlin, Jan. 23.—Official notice has been given out that the needs of the 12,000 thousands of Norway who were suffering from starvation have been fully attended to, at the instigation of Emperor William. The people of the destroyed town have taken new heart and the emperor's gift has given them great encouragement. The relief work is well organized and provision is being made for the return of the refugees, inasmuch as there is but scanty food supplies in the surrounding country. It is intended to send several hundred children to Bergen. Invaluable assistance in the maintenance of order at Alesund was afforded by the German cruiser Prinz Heinrich, which among other things, lighted the town with its search lights. The property losses are estimated at \$1,500,000.

## WILL EXPLAIN IT.

Marshal Receives a Letter Which May Be Serious.

Bedford, Ind., Jan. 23.—Marshal M. C. Russell today received from Louisville the following letter:

"I killed Sarah Schaefer. I intend to kill myself. I will drown myself at 2:15 o'clock Thursday afternoon in the river between Louisville and New Albany. In my pockets will be found letters from her that will explain all. W. J. Russell."

Marshal Russell at first was disinclined to treat the letter seriously, but on investigation and consultation concluded that the writer may be the slayer of Sarah Schaefer. He telegraphed tonight to Chief Ridge of Louisville, requesting the Louisville police to investigate this feature of the case. Other letters have been received of a similar nature and pronounced hoax by the police. At present the police say that they have no tangible clue.

## FOR RUSSIAN ARMY.

Large Quantities of Meat Beef Shipped to the Orient.

San Francisco, Jan. 23.—Three special freight trains have just arrived here from Kansas City and Omaha with a large quantity of meat beef destined for the Russian army in the Orient. The three trains contained over 2,000,000 pounds of meat. The trains came west on fast time, in order that the beef could be carried across the Pacific on the steamer sailing from here the end of this month or early in February. This large shipment is to be split in two on the other side, half going to Port Arthur and the remainder to Vladivostok.
